Executive Secretary
Central Intelligence AgencyMAJOR GENERAL THOMAS J. FLYNN
Chief of Staff
National Security Agency

SUBJECT: Declassification of NSC Records

The Independent Counsel and Select Committees of the House and Senate which are investigating the Iran/contra matter are beginning to request that National Security Council (NSC) and Presidential documents, including many PROFS notes, that were forwarded to them in response to their earlier inquiries be declassified.

Brenda S. Reger, declassification authority for NSC and NSC primary interest information (i.e. classified Presidential records in the custody of the NSC), is responsible for the declassification review of these documents. The Assistant to the President for National Security Affairs requested that I contact you for purposes of convening, under Ms. Reger, an interagency working group to support the NSC's declassification review. The purpose of this review is to identify documents or portions thereof, if any, that may be properly declassified under Executive Order 12356.

This is to request that you nominate a member of your staff to serve on the declassification review board. Your representative on the board should have the authority, conveyed to the NSC in writing, to declassify information on behalf of their parent organization without review. In that the initial declassification review must be completed by May 5, you should forward your nominations to my office by noon, Monday, April 27. Thank you for your assistance in this matter.
